

25th January 2022
Oriental Motor (Europa) GmbH

We would like to take this opportunity to thank our customers for their continued support.

In response to the recent sharp rise in prices for raw materials and vendor parts, as well as the increase in transport and labour costs, we have made repeated efforts to improve productivity and reduce costs. Nevertheless, it has become very difficult to ensure a stable supply and consistent quality at current prices. Therefore, we are forced to adjust the prices for orders from April 2022 onwards as follows.

Products affected: All products
Price adjustment: Approx. 10 %
Date: Orders as of 1 April 2022

Note: For some products, the above mentioned adjustment will differ.
